# Hilink 5v datasheet

**Hilink** Hailing Electronics official flagship store  
**DC-DC voltage regulator isolated power module**  
 Ultra-wide input voltage 9-36V input/5V regulated output

Official genuine | free freight insurance | warranty 3 years | lifetime after-sales

**JST**

**Output short circuit over-current voltage protection can self-recover**  
 DC/DC series: HLK-10D2405

Hilink 5v 3w datasheet. Hilink 5v 5w datasheet. Best 5v amplifier board. Usb 5v specification. Watts to amps 5v. Dc 5v to watts. 5v to amps.

Length error, width, height and lead to lead  $\pm 0.2 \text{ mm}$   $\pm 8\%$ . Lead diameter error  $-0.2 \text{ mm}$  page 2 deeply grown in the sector for more than ten years, using cumulatively more than 10 W+ customers, modules WiFi, Bluetooth modules, power modules and other products are exported to over 80 countries and regions, providing customers with professional and reliable IoT module products, a strong technical support and a guarantee of weighted after-sales service, i Products are widely used in intelligent home, intelligent doctor, intelligent office, automotive electronics and industrial control camps. Ultra-compact power module 3W Ultra-compact power module 3W The hilink hlk 10m05 module is a power to CC power module, compact and highly reliable. Page 4 deeply cultivated in the sector for more than ten years, cumulatively serving more than 10 W of customers, WiFi modules, Bluetooth modules, power modules and other products are exported to over 80 countries and regions, providing customers with professional IoT module with customers And reliable, strong technical support and a guarantee of weighted after-sales service, the products are widely used in intelligent sectors, intelligent medicine, intelligent office, automotive electronics and industrial control. does not exceed  $90 \text{ }^\circ\text{C}$  at room temperature; The maximum increase in the temperature of the surface of the shell must not exceed  $60 \text{ }^\circ\text{C}$ . Size and weight steps and weight sizes error: 1. This module provides a convenient way to convert 100-240 VC to 5 vdc @ 2A Reliability, ultra small package, range of universal input voltage and high isolation. Short Circuit and Over-Current together with Self Recoveryhigh Efficiency Input for Output Insulation: 3000 Vacmeets UL, EC specific input requirements Gamma of voltage:  $90 \text{ }^\circ\text{C}$   $\pm 2\%$  Vacmax Current input: 2200 Malong Time Max Output Current: 2000 MAHI LINK HLK 10M05 ImprintFor more details, visit the Download section. AC/DC-10W power module selectionMULTIPLE SPECIFICATIONS AVAILABLEWide voltage 85-264VAC/70-350VDC 10W power module, regulated single outputMODELPPOWERVOLTAGEELECTRICITYHLK-10M0310W3.3V3030mAHLK-10M0510W5V2000MAHLK-10M0910W9V1.11MAHLK-10M01210W12V833mAHLK-10M01510W15V667mAHLK-10M02410W24V416mA\*Same series appearance and pin size\*Module size 46.9 x27.8x21.8 mm ( $\pm 0.5 \text{ mm}$ ) wide entrance: 85-264vac/70-350vdcinput and isolation of output of the voltage resistance 3000vacno-Carcio is  $\pm 0.1 \text{ }^\circ\text{C}$   $\pm 60 \text{ }^\circ\text{C}$  Woprarranting temperature range:  $25 \text{ }^\circ\text{C} \sim +60 \text{ }^\circ\text{C}$  Attached plastic housing, in line with the short circuit UL94V-0 Levelgood Output and excessive protection and the self-receipt and the seal with high ecological ecological and driving quality glue i Test requirements can be used in medicine, industrial control, electricity, instrumentation, communication, railway and other voltage fields characteristic OAD Input voltage and loading characteristics At the environment of the environment and loading characterization of the characteristics and the characteristic load of the Sstimistic application circuit circuit of partfuse/merger application: Protective circuit when the form is abnormal (recommended: 0.5a/250 Vac Scolo Sched) Varistor/Varistor : Protection module during the increase in cumulative (cumulative surge (Cumulative Surge Surge (Cumulative Surge) is recommended: 1.0d561k C1/Safety condenser: filter, safety protection (EMC certification) (recommended: 0.1u/275vac) L1 (Common Modality Inductor: EMI filter (recommended: inductance 10-15mh, current 70-500ma)\*Fusible and Varistore are basic protection circuits (requested)\*If certification, safety capacitors and Common modality inductors cannot be omitted output section section/condensed filter, after afterwards This capacitor, the exit ripple can be controlled within electrolytic aluminum capacitors [recommended] [recommended], with a 100-220UF capacity value and resist the voltage it holds over 75%.Rlload load\* The C2 filter capacitor can reduce the output pipe from the original 50mv to within 30 mv. Safety footer featterproduct design feature meets ULEC certification requirements and safety. The ULEC certification must be completed by customer safety) of safety and electromagnetic compatibility The input card adopts the certification UL 0.5A Insurenceothe PCB Board of laminate coated in double face copper and the evaluation of the fire of the material is standard of Safety at 94 V0. % Rhcontation and Radiation complies with the safety standards EN55011, EN55022 (CISPR22) compliant with UL1012, EN60950, UL60950 Electrostatic Electrostatic IEC/EN 61000-4-2 level 4 8Kv/15kvradio RA RA RA RA RA Ra Diacton Immunitie IEC/EN 61000 -4-3 See note of the application for the design of the safety of increase in the scratching of details The maximum temperature increase in the internal surface of the power condenser, the main converter, etc. Page 5 deeply cultivated in the sector for more than ten years, cumulatively serves more than 10W+ customers, wifi modules, Bluetooth modules, power modules and other products are exported to over 80 countries and regions, providing customers with professional and reliable IoT module products with , strong technical support and guarantee of the after-sales service, the products are widely used in intelligent sectors, intelligent doctors, intelligent, automotive electronics and industrial control. The output of this form is 5 VDC, with a maximum current of 2A, with a power score of 10 W. Page 3 grown deeply in the sector for more than ten Using cumulatively more than 10 W+ customers, wifi modules, bluetooth modules, power modules and e The products are exported to over 80 countries and regions, providing customers with professional and reliable IoT module products, strong technical support and a guarantee of weighted after-sales service, the products are widely used in intelligent home, intelligent medical, intelligent intelligence, electronic intelligence automotive and industrial control fields. The safety capacity and the inductance in common modalities must not be omitted if external dimensions of external size certified description of the PIN: input AC; 3: -Vo negative output; 4: +Vo positive output  $\pm 0.2 \text{ mm}$  directly \* Note: if the definition of the PIN of the Potenza module does not comply with the selection manual, the label should prevail as deeply cultivated in the sector for more than ten years , using

cumulatively more than 10W+ customers, wifi modules, Bluetooth modules, power modules and other products are exported to over 80 countries and regions, providing customers with professional and reliable IoT module products, strong technical support and guarantee of after-sales service, are widely the products. Used in intelligent sectors, intelligent, intelligent, automotive electronic doctors and industrial control. Leader's length error  $\pm 1\text{mm}$ . An oscilloscope bandwidth of 20 MHz with 10uF and 0.1uF on the load was used for the test of the input voltage and the characteristics of the input voltage and load load are recommended. /FUSE: 1 A/250 Vac/10  $\text{A}$  Wire Wound Resistor. Fusemovl Varistor: 10D561K (Protect module from the damage during the wave) C1/C2 Safety capacitor: 0.1uF/275vac (safety filter/protection /EMC Certification) L1/Common Modality Goke:  $\pm 5\%$  resolution value of inductance 10-30mh (test requirement: 1khz/0.3 v  $\text{ms}$ )  $\text{A}$  EMI FILTER/TERATE1.FUSE and VARTISTOR are the basic protection circuit.
